*"NARAL Pro-Choice Wisconsin is an incredible community of hard-working women and men, fighting for our rights on a shoe-string budget. I'm proud to invest my time and money to build a better Wisconsin with NARAL."*

- Elizabeth Shimek, attorney and NARAL Pro-Choice Wisconsin member

## Who We Are

A pro-choice person believes that when someone becomes pregnant they should have the choice between parenting, adoption, and abortion.

**NARAL Pro-Choice Wisconsin** is an organization of thousands of women and men committed to making political change. Founded in the 1980s, we work to elect pro-choice candidates and pass legislation that increases access to abortion, contraception, and other reproductive healthcare.

*Together, we help change Wisconsin's culture to one that embraces a woman's right to control her body and her future.*

While we share a name with NARAL Pro-Choice America, we are an independent organization funded by our members.

We have two staff members, hard-working volunteers, and a committed board of directors.

## What We Fight For

NARAL trusts women. And women trust us to fight for their rights. We advocate for:

- Abortion services to be made affordable and accessible to all who need them
- Universal access to contraception
- Evidence-based information on reproductive health to be available to patients, families, and school students
- Patients and providers to be able to access healthcare free from harassment and violence

## Who We Work With

**Providers:** We work with reproductive healthcare providers such as Planned Parenthood to make Wisconsin a supportive place for them to serve their patients. We are a resource for all healthcare professionals, helping to ensure they can give the best care.

**Lawmakers:** We work with Democrats and Republicans to pass legislation that advances reproductive rights,

healthcare access, and gender equality for all Wisconsinites. Our staff and members provide a pro-choice voice in the Capitol year-round.

**Partner organizations:** We collaborate with other nonprofits to increase the social, economic, and physical wellbeing of Wisconsin's women and families.

## Volunteer, Advocate, Participate

Whether you want to table for us at your local farmers' market or lobby your representatives, we can be a resource for you.

Email [info@prochoicewisconsin.org](mailto:info@prochoicewisconsin.org) or call us at (608) 287-0016 to get started.
